1. Abstract

1.1 For Members

Avacopan is a medication used for the treatment of granulomatosis with polyangiitis (Wegener's Granulomatosis) and microscopic polyangiitis, conditions which body attacks its own veins and other blood vessels that can cause damage to organs.

1.2 For Medical Professionals

Avacopan is in a class of medications called complement inhibitors.

Treatment with Avacopan is given in combination with a rituximab or cyclophosphamide regimen, is indicated for the treatment of adult patients with severe, active granulomatosis with polyangiitis (GPA) or microscopic polyangiitis (MPA) in combination with standard therapy including glucocorticoids.

2. Scope

Scope of this adjudication rule is to highlight the medical indications, and coverage details of Avacopan as per policy terms and conditions of each health insurance plan administered by Daman.

3. Adjudication Policy
