1. Abstract

1.1 For Members

Dyschromia refers to an irregular or patchy discoloration of the skin. Vitiligo is a skin condition in which there is loss of pigment from the skin, resulting in irregular white patches that feel like normal skin.

Treatment of Dyschromia and Vitiligo is not covered for any health insurance plan administered by Daman, except for those plans with the specific benefit, subject to policy terms and conditions.

1.2 For Medical Professionals

Vitiligo is a complex disease whose pathogenesis results from the interaction of genetic components, metabolic factors linked to cellular oxidative stress, melanocyte adhesion to the epithelium, and immunity (innate and adaptive), which culminate in aggression against melanocytes. In vitiligo, melanocytes are more sensitive to oxidative damage, leading to the increased expression of proinflammatory proteins

2. Scope

This guideline outlines Daman's coverage of Vitiligo and Dyschromia for all health insurance plans administered by Daman.

3. Adjudication Policy

3.1 Eligibility / Coverage Criteria

Daman does not cover any treatment directed towards Dyschromia for all health insurance plans administered by Daman. Treatment of Vitiligo is covered only for those plans with the specific benefit, subject to policy terms and conditions.

3.2 Requirements for Coverage

ICD and CPT codes must be coded to the highest level of specificity.

3.3 Non-Coverage

Treatment of vitiligo will not be covered for any health insurance plan administered by Daman except UAE Plus (SEHA) and Thiqa. Daman does not cover any treatment directed towards dyschromia.

3.4 Payment and Coding Rules

Please apply the regulator's payment rules and regulations and relevant coding manuals for ICD, CPT, etc.

Adjudication Examples

Example 1

Question: A 26-year-old female patient holding an international plan was diagnosed with vitiligo and has been advised PUVA by her treating dermatologist.

Answer: The treatment will not be covered for this patient.

Example 2

Question: A 35-year-old male patient holding UAE Plus (SEHA) plan, diagnosed with vitiligo, has been advised to undergo PUVA.

Answer: The treatment will be covered for this gentleman.

4. Denial Codes

Code	Code Description
NCOV-001	Diagnosis(es) is (are) not covered
MNEC-003	Service is not clinically indicated based on good clinical practice
AUTH-001	Prior approval is required and was not obtained
AUTH-005	Claim information is inconsistent with preauthorized services
NCOV-003	Service(s) is (are) not covered
